

We would like to take this opportunity to welcome you to our practice by providing history about the team you have entrusted to share in what we hope is a long and healthy relationship.

Milltown Family Physicians (MFP) formed in 1980, when Dr. John Miller began a solo practice in Wooster. In 1991, shortly after the current Milltown Professional Building was completed, Dr. Amy Jolliff joined his practice. A clinical nurse practitioner joined the practice and Milltown Family Physicians was incorporated. Currently, we have two clinical nurse practitioners.

In the 1990's an addition to the professional building was completed and is the current location of the practice. Four new physicians were recruited, including Dr. Christopher B. Ranney and Dr. Eric A. Smith in 2007, and Dr. Paul Nielsen in 2010 and Dr. John Schinner in 2017, Dr John Prokop in 2019.

The office was remodeled in 2010, along with adding more exam rooms, the practice was able to move all paper charts off-site to permanent storage as they were using EHR. In 2014, the practice underwent a major renovation, adding more than 4,000 additional square feet.

The physicians who make up the current MFP group each have special areas of interest that bring something unique to our practice: Dr. Miller is medical director at several long-term care facilities; Dr. Jolliff serves as Wayne County Coroner; Dr. Ranney is additionally board certified in sports medicine, serving as the team physician for many local area athletics, including the Wooster Oilers hockey team and The College of Wooster; Dr. Smith is trained in both acupuncture and hypnosis therapy and specializes in women's health. He also serves as medical director of the Viola Startzman Free Clinic; Dr. Nielsen specializes in preventative medicine and mental health care issues. He serves as Medical Director at Glendora Care Center, Smithville Western Care Center, and The Avenue. He serves as Co-Director of Pulmonary Rehabilitation at Wooster Community Hospital. Dr. John Schinner is a Board Certified Family Physician who is dedicated to quality patient care. He and his wife have recently moved to Wooster. Dr. John Prokop D.O. focuses on all ages for family practice and offers osteopathic manipulative treatment.

Milltown Family Physicians currently serves about 16,000 patients; its staff sees 150+ patients daily in the office, and the practice has many in-office procedure and labs. Our mission is to be a community oriented independent practice committed to the highest quality patient focused care for all ages. As Staff and Providers we choose to promote the traditional doctor-patient relationship throughout a lifetime. MFP website is [www.milltownfamily.com](http://www.milltownfamily.com) where patients have access to many resources and information regarding Milltown Family Physicians.

## Notice of Advance Directive

### Patient Acknowledgement Form

Today, advances in medicine and medical technology save many lives that only a few years ago might have been lost. Unfortunately, this same technology sometimes artificially prolongs life for people who have no hope of recovery.

An Advance Medical Directive is a legal document that allows you to give instructions for your future medical care, to request or refuse treatments and to express your feelings about other healthcare issues. The documents can be found on the Ohio State Bar Association website using the following link.

<https://www.ohiobar.org/.../advance-directives.pdf>

By signing this form, you acknowledge that you have received information on how to create an Advanced Directive.

## **Billing – Your Charges**

Your fee is based upon multiple considerations. The first is your recognition of the value of our medical opinion. Other factors include time spent with you during your visit, the complexity of your medical condition and any treatment that is provided. But proper attention to your care also requires additional time spent beyond that of when you are in the office. Such time may be used or include:

- Create or maintain your permanent medical record.
- Review, interpret and document all lab test results and communicate those results, orally and/or in writing to you.
- Review current X-ray or scan reports, compare them with reports of previous scans, and, when the studies are abnormal, consult with the radiologist.
- Prepare and mail consultation reports and letters suggesting patients come in for a follow-up visit.
- Consult via phone about your case with referring or consulting physicians and other health care providers.
- Prepare referral letters to additional specialists, as needed.
- Prepare patient education materials.
- Conduct medical research relevant to your case.
- Communicate with pharmacies about your prescriptions.
- Complete insurance applications and claim forms.
- Conduct utilization review negotiations with hospitals and insurance companies.
- Review and manage hospital records.
- Draft letters of necessity to obtain medical services, instruments or prescriptions that you need.
- Draft reports and forms, including home health care orders and nursing facility orders.

All these activities add to our cost of providing you with quality healthcare services. Still, we are committed to providing you our services at the lowest cost possible.

We hope this explanation of our fees has been helpful. With you, our patient, we look forward to a lasting and health relationship.

Sincerely,  
Milltown Family Physicians

**MILLTOWN FAMILY PHYSICIANS MISSED APPOINTMENT POLICY**

The physicians and staff at Milltown Family Physicians place a high priority and value upon our patients’ time. When a person misses an appointment without allowing adequate notice, we cannot offer that time to others and; compromises our ability to provide care to others.

We consider the physician-patient relationship to be the most important element of our commitment to care. When a person misses their appointments repeatedly, we believe it is a poor predictor of a therapeutic future relationship.

“Missed appointments” are defined as scheduled visits that are not cancelled with enough time to offer the appointment to another patient. If notification is made on the same day as the anticipated care, the designation of “missed appointment” will depend upon the circumstances and may be waived by the providers or office manager.

If you need to cancel an appointment, please provide prior notice. If cancellation does not occur with a minimum of two (2) hours prior notice, the visit will be considered a missed appointment. There is a fee of \$25 each for a Complete Physical Exam, a second or third missed appointment that occurs within 365 days. If three (3) missed appointments occur within a year (365 days), then you will be asked to seek medical attention elsewhere.

Thank you for your cooperation and understanding.
